*BMI is specialized in
the following area's
of services*

1. Interior Design and Space Planning

An interior design concept is the central theme that all the design elements are focused upon. It exists as an idea first and is brought to reality through careful planning.

At its best, an interior design concept is visual theme that evokes a specific mood by strategically using color, space and style.

Space planning is the core of any interior design. It is usually the allocation and division of interior space to meet the requests and needs of an individual client whether they are looking to plan a work place warehouse or even an office building.

2. Partitioning Services

01

Drywall

are one of the most cost-effective, high-quality, and smooth-finishing option

02

Cyclorama walls

also called infinity walls, provide the illusion of a boundless, seamless, corner-free backdrop for film and photoshoots.

03

Frameless Glass

Ideal for new and old office fit outs, frameless glass walls have a modern and clean appearance that shines a new light on your interiors.

04

Glazed Glass

Choose from single glazed partitioning or double glazed partitions, depending on your insulation requirements.

3. Flooring Services

Flooring has a big impact. The best one is determined by the type of use, attractiveness, and value for money.

Many options are available to choose from. Based on your requirement and our experience, we can provide expert advice on the type of flooring and deliver high quality finishing.
