ACRYLIC SOLID SURFACE DIVISION

Creative Concepts also provide the complete solution for supply installation of acrylic solid surface material. Its primary use is as a counter top/bench top surface for interior residential and commercial usage, though it has many other applications.

SOLID SURFACES ARE USED IN THE FOLLOWING ENVIRONMENT:

Kitchen/Bathroom: Upper-end home kitchen worktops with integrated sinks, countertops, vanities, and bathtubs etc.

Hospitality/Catering: Bar, Tables, and office interior, reception desk etc.

Shop Fitting: Displays, counters, and wall claddings etc.

Airports: Check-in counters, reception desks, and interior office.

Hospitals: Laboratory countertops, decontamination sinks, seamless, a hygienic and nearly indestructible work surface.

GENERAL SPECIFICATIONS

Material: Composite acrylic, pure acrylic, polyester solid surface.
Size: Length 3680mm width.

760mm (up the customer's design).
Thickness: 6mm, 12mm, 15mm, 18mm, 20mm, 25mm, 30mm.

Color: More than 100 colors for the customer to choose. And we can match the colors against the customer's samples.

Counter Top Edge: Bevel double, bevel top single, bullnose double, bullnose half, bullnose single, dupont double, dupont single etc.

Front panel & back splash & side panel: The size upon the customers specified design specification.
