ABOUT US

SEEB Interior Design L.L.C. takes pride in its ability to blend creativity and engineering in every one of its projects. While paying careful attention to functionality, scale and proportion, the firm ensures that every one of its designs has the WOW factor in an original way.

At SEEB, we believe that the best way to produce a distinctive design is to listen to what our clients have to say and combine their ideas with the creative thoughts of our designers. Our Dubai studio has been pursuing design excellence, sustainability and research-driven solutions since 2012.

Located in the heart of Dubai, our team is committed to delivering designs that combine our international standards and best practices with local expertise to ensure that clients receive world-class design tailored to the local context. With a combination of creative, technical and administrative experts we have delivered several successful projects within their own financial and time restrictions.

We believe that the best way to produce a unique design is to listen to what our clients have to say and combine their ideas with the creative thoughts of our design team.

SEEB was founded on the belief that design has the power to transform lives for our clients, our culture, and our communities. By gaining a holistic view of our client's vision, requirements, and context, and adding creativity and innovation, our work addresses complex problems.

OUR VALUES

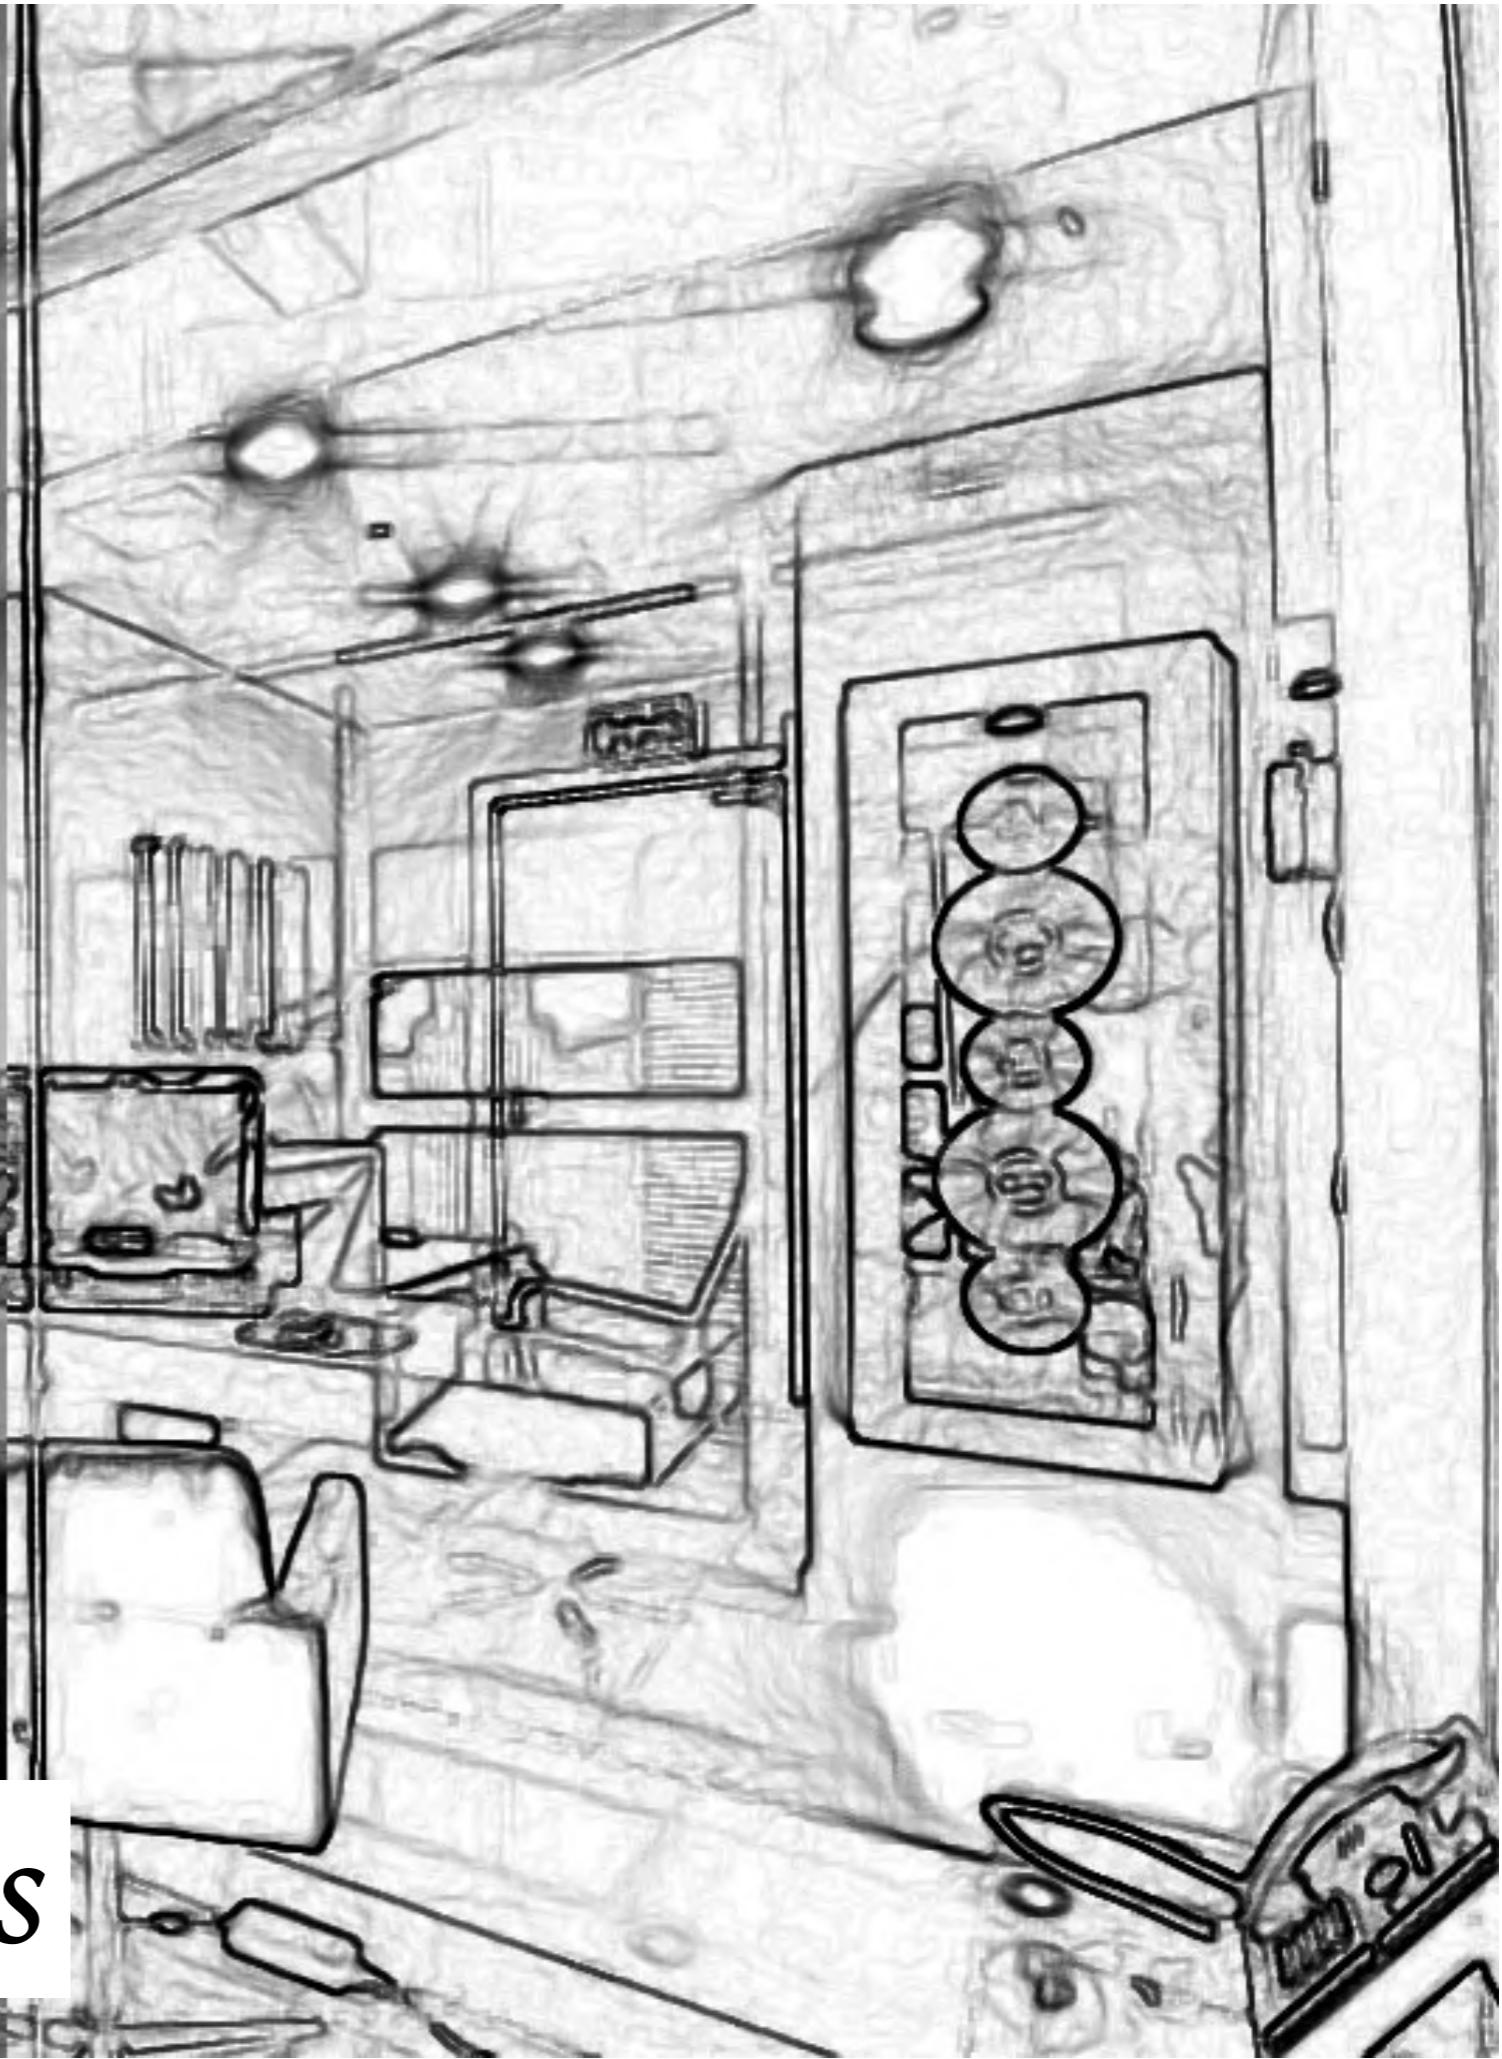

We transform our client's businesses and missions, helping to make them leaders in their fields. A deep dedication to sustainability and social responsibility is fundamental to our outlook, work, and culture. We are committed to creating regenerative designs which heal their environments and enhance the quality of life.

Each of our projects represents our commitment not only to the individual client, but also to elevating the state of the art for the design professions and improving society for future generations. Over this year, SEEB has built a client base of top residential, commercial and retail within the UAE.

The success of SEEB is down to a simple philosophy; to stay loyal to the client's brief and meet the operator's requirements of functionality, yet at the same time, create an interior that meets the highest international standards, whilst providing a unique and memorable experience for the client. The level of service, integrity, and professional experience assures that the end results will exceed expectations.

Whether selecting a new piece of furniture, conducting a renovation, or designing an entire new place, we provide the support and expertise to help our clients navigate an otherwise overwhelming process.

We collaborate with the best industry partners and have access to unique vendor resources to ensure that the end result exceeds our client's expectations.
