

FIT-OUT

REMCO Fit-Out Department associates with various fit-out contractors & interior designers and execute the MEP part of the fit-out construction. The REMCO Fit-Out department is experienced in all types of MEP services for fit-out projects such as Air-conditioning, Electrical, Plumbing, Fire Alarm & Fire Fighting services along with specialized systems like Access Control, CCTV, BMS, Leak Detection System, CCUs etc.

Commercial MEP fit-out associated with interior development is a challenging space to work in. The functionality of a space is heavily reliant on the way fit-out services have been executed. Especially for office workspaces, it conveys the image a corporate brand is trying to project and makes the whole environment feasible for productivity. In a short span of years, the Fit-Out department has proven its ability to execute sizeable and complex projects by ensuring projects are delivered within the provided time & budget constraints, whilst ensuring the highest standards of quality in all of our endeavors.

The Fit-Out department employs customer oriented processes, practices and complies with the standards as the basis for business excellence. In addition, the department is firmly dedicated provide and maintain a safe and healthy work environment through effective administration, education and training, in line with the industry standards and legislative requirements.

Strong dedication in achieving and reinforcing customer satisfaction is a vital aspect of the department. This is shown by means of continually improving and delivering high quality services, in order to meet and surpass the customer expectations and requirements for every facet of our business.
