

ONNO

C O N C E P T

“Be yourself;
everyone else is already taken.”

Oscar Wilde

**Give
freedom of expression
to your identity.**

To reflect yourself in our story,
be inspired by the statements that define us.

What is the vision that guides us?

To create the most consumer-centric architecture and design company in the Middle East by creating spaces that are an extension of the self.

Our goal is to reflect the customer in everything we design. At ONNO we embrace uniqueness in every project while we create alignment between the individual's personality and his space - every room, decor and functionality is developed to match the story within each one of us.

What mission drives us?

- ⌘ To bring to life the personality of those who want to express themselves, space after space.

We enable the creation of ultra-bespoke high-end projects, by delivering end-to-end turn-key solutions, that go from design to execution, from the large scale to the finer details.

08

Tailor-made architecture, interior design, furniture, and fit-outs in high-end materials, individually created for highly distinguished clients.

ONNO brings to life the personality of those who want to express themselves, space after space. Some people see "just a dream"; We see an opportunity for self-realization.

We are attentive to needs, thinking deeply about how to design spaces that are beautiful, efficient and a joy to experience. Our design studio is a place where the owner's inspiration becomes pure innovation, where ideas become successful projects by starting the self-realization journey for our clients.

We wish to create everything piece by piece, in a constant dialogue with the owner and his loved ones. It all starts in the mind's eye of our client and continues in the masterly hands of those who make the most of it.

What defines every project we put our soul into?

We see the space as a personal transformation, the perfect blend between architecture and functional design.

SERVICES

1

Architecture Design

Every architecture creation caters to the individual. A tailor-made project that reflects your way of living.

11

2

Interior Design

The distinctive design, furniture and fittings are the fruit of a partnership between the client and some absolute masters of design.

3

Concept Design

A holistic concept is an exciting experience to savor, up close. From the big picture to the finest details, create spaces that tell an unforgettable story - your story.

4

Product Design

Fusing creativity with innovation and production capabilities, each bespoke décor item embodies a timeless design and high-class materials.

5

Fit Out & Execution

Experience the harmony of customization from idea to a final product. Executed in our Dubai-based facility, all products are a hallmark of fine craftsmanship and premium materials.

6

Exhibition Stand Design & Supply

Standing out is the gateway to brand reputation. All projects provide the wow factor and flawless implementation from draft proposal to on-location installation.

MANAGEMENT TEAM

Jessy Arab

Design Director

Over-the-top attention to detail, timeless designs, and contemporary lifestyle are the core principles that drive Jessy in her work. Leading the Art and Design Department and boasting a 10+ years' experience in the UAE, she is recognized for her unique way of connecting with clients and reflecting their individuality in every design concept.

Rony J. Zarife

Fit-Out Director

Rony has a keen eye for detail and is deliberate in integrating simple and effective solutions to encountered challenges. His evolution went from interior design and engineering to management. This background adds value to every project as he has both respect for the design to be achieved, and the right skills to lead teams.

OUR PROJECTS

Great architecture always starts with people.

That's why we help our clients realize their ambitions through architecture that's grounded in people, their experiences, and their environments, applying our integrated expertise to unlock the potential in every project.

01

AL BARARI

The project's ambition was to highlight positive energy reflecting a unique lifestyle. The 6 bedroom Villa express a wonderful fusion between contemporary and modern, customized from top to bottom reflecting the owner's daily lifestyle.

02

AL BARARI

Enjoying a contemporary approach, our 5 bedroom interior design project breathes luxury through every pore proudly expressing the European minimalist style.

03

**HIDD AL
SAADIYAT**

The villa was born from the desire to respect the amalgam of eclectic & contemporary international lifestyle, inspired by an owner with Arabic roots who studied abroad. The result: 6 bedroom Villa, with amazing interior design and bold architecture that comes in perfect balance with the landscape.

Working close to our local client, we noticed his attention to detail, but also his appreciation for special colors, prints, and textures. To be one step closer to his own identity: 6 bedroom interior design in classic style with a twist that complements his own personality.

05

JUMEIRAH VILLA

When you want to inspire and compliment not one, but 5 different personalities of each family member with European origins, it is not an easy mission to build the dream house.

For this 5 bedroom Villa the construction, architecture, landscape and interior design considered the use of materials and mixed light to express the love of gathering with the family and meeting friends.

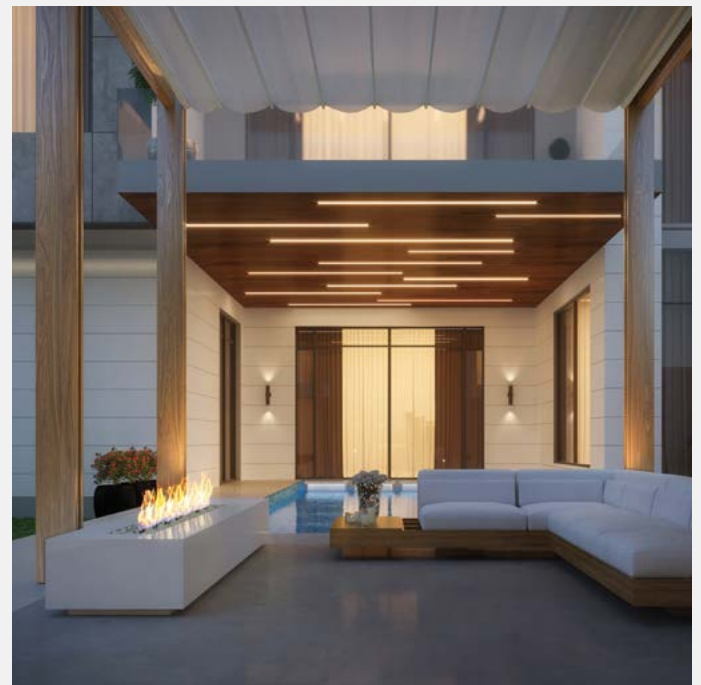

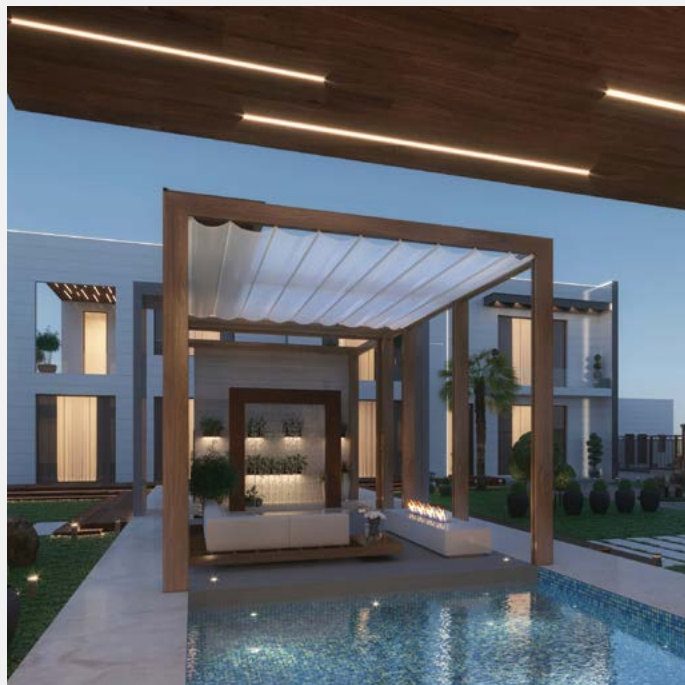

06

AL KHAWANEEJ MANSION

All of our efforts were put into providing the perfect energy and balance to our local client, that's why we wanted to offer a memorable simplistic twist to the project, because in this case. And because this case, the family comes first, harmony of all have been added to our list of priorities.

All our energy was concentrated to give birth to an impressive project: the construction, architecture, interior design, and landscape of 8 bedroom mansion + guest house.

07

ROYAL MARINA ABU DHABI VILLAS

This project aims to create an experience derived from the owner's lifestyle: a true outdoor and nature lover.

For a person who puts great value in life's moments, a priority was to create a joyful space to experience: sitting and coffee ceremonies area. Our ambitious architecture, landscape, and interior design project contained 4 Villas with 5 bedrooms each.

08

EUROPEAN HOLIDAY VILLA

Our purpose was to create a perfect vacation home for an Emirati in Europe. Our retired inhabitants wanted a space where the brothers gather and spend their time relaxing, which is why we focused on a balanced division of space. Our ambitious team paid special attention to the construction, architecture, landscape, and interior design of a 3 bedroom Villa.

09

MEYDAN VILLA

Our 4 bedroom Villa futuristic interior design approach was inspired by the professional life of a digital entrepreneur. It is a bit of luck when a client talks about expensive things highlighted in the design lines, domestic roles, rather than predefined forms. This sparked creating an area that best expresses his personality at important business dinners he proudly hosts..

10

HIDD AL SADIYYAT

Having a client who places great emphasis on children's education, in perfect balance with professional life, we had to create a 4 bedroom Villa interior design space that speaks for itself, translating the sophisticated personality of the owner.

11

AL KHAWANEEJ VILLA

When you have a hectic corporate life, you also have challenges at every step. And finding the perfect living space for us was a challenge that must complement the sophisticated personality of a beneficiary surrounded by an up-scale family, urged us to use a natural combination of classic and contemporary elements. The perfect combination between architecture and functional composition: 3 bedroom Villa construction, architecture landscape, and interior design.

12

CITY WALK

Living in a digital age, keeping up with social media trends, and inspiring your fans on the go, is just another day for you.

Your living space must reflect your energy and offer you the fulfilling experience that you deserve. Inspired by a vibrant urban lifestyle, we've designed luxurious 2 bedroom apartments with world-class interior design that will complement the client's personality.

13

EMIRATES HILLS

Our 5 bedroom Villa interior design project had to meet all the requirements of a client with a special personality.

Wanting to keep everything well organized, our local Emirati client motivated us through his visions full of perspectives, inspiring us to give birth to a space full of contemplation.

14

THE PALM

When you are a famous pop star, you need a space that inspires you, motivates you, and fits exactly your style and personality, even when you have your holiday nest with a modern industrial edge interior design.

15

AL AIN

When you have a client who comes from the royal family, elegance was our number one priority. To best reflect the unique personal style, the classic manner in interior design was a necessity. With a simple and direct approach, naturally adding the wow factor, the 4 bedroom Villa must complement the personal style of classical music and art lover.

At ONNO we celebrate individuality.

Our goal is to reflect the customer in everything we create. Every room, decor and functionality is developed to match the story within each one of us.
